

7th Annual Neurosurgery, Neurotrauma, and Critical Care Course

All Virtual, Presented via Zoom

Three Sundays in November: November 8, 15, and 22, 2020

9 am to noon NYC time/ 5 to 8 pm East Africa time

TanzaniaNeurosurgery.org

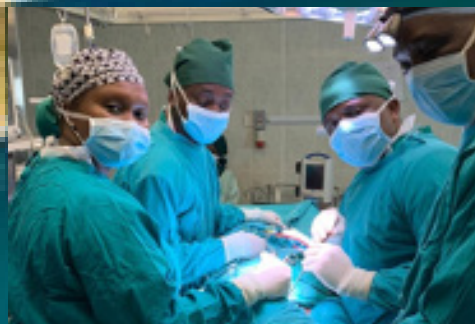

Hosted by Muhimbili
Orthopaedic Institute (MOI)
Dar Es Salaam, Tanzania

Weill Cornell
Medicine
Brain & Spine
Center

In collaboration with
Weill Cornell Medicine
Brain and Spine Center
New York, New York

COSECSA

College of Surgeons of
East, Central and Southern Africa

Foundation for International Education in Neurological Surgery

7th Annual Neurosurgery, Neurotrauma, and Critical Care Course

Local Organizing Committee

From Muhimbili Orthopedic Institute (MOI)

- Juma Magogo, MD, MMED
- Constancia Bureta, PhD
- Albert Lazaro, MD
- Laurent Lemery, MD, MMED, MSc
- Nicephorus K. Rutabasibwa, MD, MMed
- Hamisi K. Shabani, MD, PhD, FCS

Local Faculty

From Muhimbili Orthopedic Institute (MOI)

- Respicious Boniface, MD, MMed
- Aingaya Kaale, MD, MMed, MSc
- Joseph F. Kahamba, MD, MMed, MSc, MBA, FCS
- Othman W. Kiloloma, MD, MMed, MSc
- Albert Lazaro, MD
- Nicephorus Rutabasibwa, MD, MMed, MSc
- Henry Humba, MD
- Hamisi S. Shabani, MD, PhD, FCS

International Organising faculty

- Beverly Cheserem, FRCS
- Branden Medary, US

International Organizing Committee

From Weill Cornell Medicine, New York, NY

- Roger Härtl, MD, Director of Spinal Surgery, Weill Cornell Medicine Brain and Spine Center
- Halinder S. Mangat, MD, Adjunct Assistant Professor, Department of Neurology

Day 1: Sunday, November 8, 2020

PRELIMINARY AGENDA

The Value of Data in Managing Traumatic Brain Injury Patients

The course opens with a robust series of lectures discussing how data and informatics influence the needs, performance, and effectiveness of medical care

Moderated by Dr. Roger Härtl, Dr. Costancia Bureta

Lectures and talks by:

Amos Adeleye, Ibadan, Nigeria

David Clark, UK

Aneela Darbar, Pakistan

Halinder Mangat, US

Hamisi Shabani, Tanzania

Case-based discussions led by MOI

7th Annual Neurosurgery, Neurotrauma, and Critical Care Course

Day 2: Sunday, November 15, 2020

Managing Spinal Trauma in a Resource-Limited Setting

On the second Sunday of the course, we will focus on pragmatic research and management in low- and middle-income countries (LMICs)

Moderated by Dr. Scott Zuckerman, Dr. Henry Humba

Lectures and talks by

Alaaeldin Ahmad, Palestine (The role of artificial intelligence (AI) in spine training)

Massimo Balsano, Italy

Christopher Bonfield, US

Richard Bransford, US

Ncumisa Jilata, South Africa

Izzy Lieberman, US

Nicephorus Rutabasibwa, Tanzania

Jake Timothy, UK

Scott Zuckerman, US

Day 3: Sunday, November 22, 2020

How to Succeed at International Research Collaborations

The third and final day of the course will cover international research collaborations, from what it takes to get started to what steps should be taken to ensure long-term success

Moderated by Dr. Roger Härtl, Miss Beverly Cheserem

Lectures and talks by:

Dr. Tsegazeab Laeke, Ethiopia

Dr. Gail Rosseau, FIENS, US

Dr. Franco Servadei, WFNS President, Italy

Dr. Hamisi Shabani, Tanzania

Dr. Rikin Trivedi, UK

Dr. Paul Young, US
